**T**REVOR BOND, aged 68, has been running his family farm for the last 40 years. His job meant that has always been very active and in great health. However, three years ago everything changed. Within just a few months he had a series of illnesses and as a result his life fell apart.

"I lost the use of my right arm, my right leg, and my face dropped a mile. In hospital I was rigged up to all sorts of machines and they put me on a whole load of medication. It was such an awful time. I saw people with similar conditions, some of them so bad nothing could be done for them. Three people died on my ward in that week alone.

"When I first came out of hospital, I was completely useless at home and neither use nor ornament around the farm. I really couldn't hack taking all the medication, it just made me feel worse. It was a very frustrating time for me."

After a few months Mr Bond went back to see his GP to discuss his medication. "I told him that I didn't like taking all these drugs and that I thought they made me feel worse but he insisted that they were the best thing for me although he couldn't force me to take them. I asked if there were any alternatives but he didn't offer anything. After that, life seemed to be on hold for me, I wanted to get better but the process was so slow."

Three years later he was still in poor health, he said "Very little had improved, my mouth was still droopy, I didn't have full control of my arm, I couldn't sleep and was constantly tired. I looked like a ghost of my old self."

**"Three months ago my life changed."**

Then everything changes, he explains, "I received details of the Bio-Mag Therapy Bracelet in the post. We get lots of things through the post, most of which I just put in the bin. When I read about the bracelet I was very impressed.

"I must admit I was a bit sceptical. I had tried other magnetic products in the past but they made no difference."

I asked him why, despite being sceptical, he still ordered the bracelet "I thought, well, there's no harm in trying it. As far as I was concerned it was relatively cheap and was worth a go, and since they offered a 90-day money-back guarantee I had nothing to lose. But at the back of my mind I still thought it probably wouldn't work, but it did, it really did!

# "After struggling with poor health for 3 years, a magnetic therapy bracelet changed his life."

Trevor Bond says that he feels cured due to the effects of magnetic therapy.

I wanted to know why this magnetic bracelet was different from others. "Before I got the bracelet I had difficulty doing normal everyday things. My right arm had never been able to reach up to wash my back, but now I can reach all the way to my shoulder. This happened after only a

few days of wearing the bracelet. I couldn't believe what a difference it made in such a short space of time especially after struggling for 3 years."

There is much debate on whether magnetic therapy works or not, but for Mr Bond he believes there is nothing like Bio-Mag Therapy, "I've used magnets before but they didn't make much difference, yet for some reason this one works."

**"After wearing it for just a few days I felt like a different person."**

"People may say it is a placebo, but for me it was like a door opening to a new life, I felt so well after wearing it for just a few days."

He went on to explain the main benefits. "As well as seeing a huge improvement in my arm the other major difference it made to my life was being able to have a good night's sleep."

"Before falling ill I never had sleep problems. But after my illness that changed. I would wake at 1.00 or 2.00 am in the morning about four out of seven nights. After waking, I always struggled to get back to sleep, which made life very difficult, particularly as I was living on a working farm where everyone was up at 6am.

"Having a rough night's sleep is a living nightmare. I don't know how I coped, I felt totally messed up and I couldn't function. Since wearing the Bio-Mag Therapy Bracelet I now get a full night's sleep, it is incredible.

"Whatever metals are in this bracelet, I don't care, they have made a huge difference to my life. I feel cured, it's lifted me to a different life!"

I asked if he thought it was worth the money. "I shouldn't say this, but if someone paid £50 for this they would be getting a bargain. I don't reckon they're charging enough. To me this is worth £100 or more."

He now wears his Bio-Mag Therapy Bracelet every day, in fact he claims it never comes off.

He is so passionate about it that he now buys them for friends and family. "All I say to people is there is only one way to find out if it works, and that is to put one on. It's no good just talking about it, you have to try one and see what it does for you. Even the most sceptical ones have changed their mind! It has given me great satisfaction seeing what a difference it has made to their lives as well as mine."
